

Parents:

I know the wording below sounds like I'm talking to your child, and I am :). For those families that are returning to the academy this year, I have also sent this email to your child's school email account. For those NEW to the academy, please share this email and assignments with your child.

Hope you're having a wonderful summer. Although I am enjoying my break, I am truly missing all of you! Guess what?! It's time to work out, get in shape, and build up your MATH muscles! PLEASE READ THIS ENTIRE EMAIL BEFORE BEGINNING YOUR SUMMER MATH ASSIGNMENT.

You will have two assignments to complete before August 9th, one is a Delta Math assignment and the other will help you practice your math facts.

Math Facts Practice

You WILL NOT be able to use calculators in the beginning weeks of Pre-Algebra B and Algebra 1, so it is time to practice your math facts!! Please play the following super cheesy math games to brush up on your multiplication and division facts.

https://www.mathplayground.com/multiplication_blocks.html

Make sure the content range is from 1 to 12

https://www.mathplayground.com/ASB_MeteorMultiplication.html

Make sure that you are playing the level for factors 1-25 on the dino game below:

https://www.mathplayground.com/dino_park_division.html

You Tube Channel:

Please click on my YouTube playlist if you are having trouble with any of the Delta Math assignment. I made these videos to help you with any skills that you may have forgotten. The playlist is organized by skill and is easy to navigate. This is similar to what I made for each topic in Google classroom last year.
